Notes:

1. **Break/Fix Depot Repair Program**: This is a "Break/Fix" program under which ES&S will repair or replace any component of our proprietary equipment or software which, while under normal use and service, (a) fails to perform in accordance with its documentation in all material respects, or (b) is defective in material or workmanship. The principle elements of this program are:
   a. Equipment requiring repairs must be sent to a location designated by ES&S.
   b. Customer is responsible for freight to and from the designated ES&S repair location.
   c. Repairs as a result of negligent care of the equipment are not covered under this program.

2. **Preventative Maintenance Program:**
   On-Site Annual Routine Maintenance Services: Includes cleaning, lubrication and calibration services.

   On-Site Remedial Maintenance Services: If a defect or malfunction occurs in any Product while it is under normal use and service, Customer shall promptly notify ES&S, and ES&S shall use reasonable efforts to restore the   Product to Normal Working Condition as soon as practicable. The Remedial Maintenance Extended Warranty provides that ES&S will repair or replace any component of our proprietary equipment or software which, while under normal use and service, (a) fails to perform in accordance with its documentation in all material respects, or (b) is defective in material or workmanship.
